

The John Howard Society works with men who are in conflict with the law. Our work is to assist men reintegrate back into the community after a period of incarceration. Here in our building we offer courses in anger management, substance abuse, and parenting for dads. Each of the participants becomes a member of the community, often taking more than one course. We also operate a literacy program and provide support for bail clients. All our services are offered without fee and without judgement.

This program is made possible through the financial support provided by The Winnipeg Foundation.
